Water, Foam, Carbon dioxide (CO<sub>2</sub>), Dry powder

### 5.2 Special hazards arising from the substance or mixture

Carbon oxides. Combustible. Vapours are heavier than air and may spread along floors. Forms explosive mixtures with air on intense heating. Development of hazardous combustion gases or vapours possible in the event of fire.

Do not use a heavy water stream. Use of heavy stream of water may spread fire

Sodium azide in water is a weak base. Reacts with copper, lead, silver, mercury, and carbon disulfide to form shock-sensitive compounds. Reacts with acids, forming toxic and explosive hydrogen azide. Contact with acids liberates toxic gas.

### 5.3 Advice for fire fighters

In the event of fire, wear self-contained breathing apparatus.

## SECTION 6: Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

For spillage of bulk material or quantities > 1 litre, gloves resistant to fluorinated solvents and eye protection recommended. Avoid contact with eyes, skin and clothing. Do not breathe vapours, aerosols. Evacuate the danger area, observe emergency procedures, consult an expert.

### 6.2 Environmental precautions

Prevent entry to sewers and public waters. Avoid release to the environment

### 6.3 Methods and materials for containment and clearing up

SMALL SPILLS (under 1 L): Cover drains. Use absorbent material and place in a suitable container for disposal.  
LARGE SPILLS: (more than 1 L): Use appropriate containment to avoid contamination of surrounding area.

### 6.4 References to other sections

See section 8 for further advice on protective equipment and section 13 for further advice on disposal.

## SECTION 7: Handling and Storage

### 7.1 Precautions for safe handling

Avoid contact with skin and eyes.

### 7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed when not in use. Keep/Store away from extremely high temperatures and incompatible materials.

Incompatible material: Strong acids, strong bases, strong oxidizers. Heavy metals. Halogenated hydrocarbons

### 7.3 Specific end uses(s)

For professional use only. Not intended for *in vivo* use. For *in vitro* research use only.  
Use only as directed as a laboratory chemical.

## SECTION 8. Exposure Controls/Personal Protection

### 8.1 Control parameters

**Occupational Exposure limit values**
